

Explore the New Exhibit at the
Cradle of Forestry Discovery Center:
Climate Change in the Southern Appalachians

United States Department of Agriculture

People everywhere share concerns about Earth's changing climate. Learn how **climate change** may affect forests in the Southern Appalachians, and how Forest Service scientists, land managers, and you can help mitigate the impacts of climate change. In addition to the new climate change exhibit, there are other exciting updates that you'll want to explore at the Cradle.

The exhibit is located at the CRADLE OF FORESTRY HISTORIC SITE, 11250 Pisgah Hwy, Pisgah Forest, NC 28768.

Can't make it to the Cradle of Forestry to see the exhibit?
