Forests of Arkansas, 2021

Arkansas has an estimated 18,866,902 acres of forest land.
* Percent forest is forest area/total area. Percent forest with water removed from total area is 57%.

This resource update is a brief look at some of the basic metrics that describe the status of and changes to forest resources in Arkansas. This information is based on field data collected using the USDA Forest Service Forest Inventory and Analysis (FIA) annualized sample design, and it is updated yearly.

Arkansas has 5,670 sample plots across the State, of which 3,562 are currently forested. Each year, about 10-20 percent of these plots are visited and measured by field crews. Data used in this update were accessed from the FIA database on 06/02/2022.
