Subject: Southern Forest Resource Assessment comments

Mr. John Greis

Dear Mr. John Greis,

This to comment on the draft of the Southern Forest Resource Assessment (SFRA). A complete report with the goal of sustainability should be the minimum from the Department.

The impact of forest trends on the ecological or socio-economic sustainability of Southern Forests will protect our forests that are disappearing fast to development and pine farming.

Sincerely,

Senator Ellie Kinnaird Room 2115 Legislative Bldg.  
Raleigh NC 27601
