wild282 The 625 legally designated wilderness areas that make up the National Wilderness Preservation System contain over 4 percent of the United States total land area, including Alaska. Each of these designated areas is protected to keep it as wild and natural as possible.

Do you think that the amount of land the Congress has designated as wilderness so far is not enough, about the right amount, or too much?

wild282b At some wilderness areas, companies offer airplane or helicopter sightseeing trips. Sometimes there are also low flying military aircraft. Some feel such flights are needed to see the scenery and that military flights should never be restricted. Others feel low altitude flights should be banned because they disturb wilderness hikers and disrupt wildlife. Which of the following is the closest to your position?

- 1 Low flying aircraft over wilderness should be allowed
- 2 Low flying aircraft should be limited, but not banned
- 3 Low flying aircraft should be banned entirely over wilderness.
